Spring

When I suddenly find I've an axe to grind
With the world and all that's in it
And I'm sick of life with its grief and strife
And would leave it in a minute,
To ease my hurt - I dig in the dirt
And grapple with lusty weeds
And chop the sod with a vengeful hoe
And grind a grub with a bitter heel
Into the dust.....because I must!
Can you guess how much better it makes

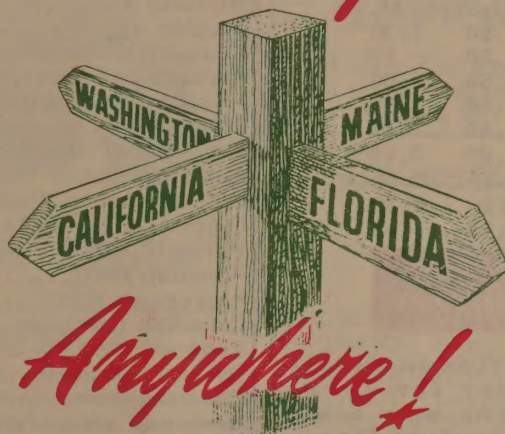

Then I scatter seeds believing they'll grow.
I KNOW they'll grow..they've done it before
So - my faith swings back to the proven track
And I am my steady self once more.

For this intimate question I beg your pardon
But what do you use.... instead of a garden?

TREE SEEDS

To have trees, seed must first be planted. Tree seed comes from the four corners of the earth. We have the right species of tree seeds for planting in climatic zone in North America.

We have sources of supply covering all parts of the world and we are therefore in a position to supply hundreds of other varieties. If in need of varieties not listed here, let us have a list of your requirements and we will quote to you our best prices. On special orders we cannot accept orders for less than \$5.00 for each individual item ordered.

We attempt to maintain stocks of the following items for prompt shipment of your orders, except on seeds that mature late. Orders for late maturing seeds will be held until receipt of new crop unless customer advises otherwise.

STRATIFICATION OF SEEDS

Variety names listed above that are preceded by a star generally require stratification of seeds so as to encourage germination. Our instruction circular supplied with seed orders will give general information. We would suggest that you also acquire U.S. Department of Agriculture publication No. 654 entitled the "Woody Plant Seed Manual". This is a book every nurseryman should have as it gives complete up-to-the-minute information on nursery procedures for raising plants from seed.

JAP YEW-TAXUS

Mounded - Spreading - Upright

BROWNS YEW

Taxus cuspidata browni-The normal development of the Brown's Yew is a graceful vase shape, somewhat more upright than the regular Spreading Yew. It has heavy, waxy, dark green foliage, grows rapidly and develops into a graceful and attractive habit.

PRICE: \$3.25 to \$7.50 each.

HICKS YEW

Taxus media hicksi- This is a columnar form with branches ascending almost vertically, generally growing with numerous stems. Its normal growth is narrow because of its branching habit, but by trimming when small, it can be grown into extremely narrow form.

It has rich, dark glossy green color, which accounts for its popularity. It has been found very resistant to extremes of heat and drought, better than some other forms.

PRICE: Potted plants \$1.50; 12 to 15 in. sheared plants, \$2.98; other sizes up to \$10.00 each.

HICKS YEW

UPRIGHT JAPANESE YEW

The normal habit is a pyramid form, broad at the base and tapering to the top of the tree. We are offering this tree in two grades-one that has been heavily sheared and the other sheared lightly.

LIGHTLY SHEARED

24 to 30 inch, \$3.00;

30 to 36 inch, \$9.00.

5 to 6 ft. \$20.00 each.

HEAVY SHEARED

18 to 24 inch, \$6.00 each.

24 to 30 inch, \$10.00 each.

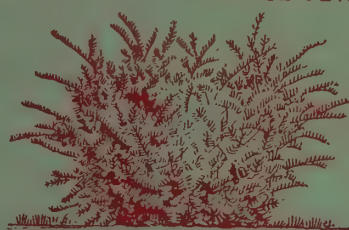

30 to 36 inch, \$15.00 each.

Taxus cuspidata-The Spreading Japanese Yew usually grows more wide than tall, branching out from the bottom with several stems, developing into a bush form. The development of this tree is also governed considerably by the training it receives. By keeping the side branches pruned off

for a time the growth is naturally more upright, while by pruning the top branches the growth can be made much lower to the ground, and in that way develop a low branching habit. PRICE: Potted plants \$1.50 each; others at \$2.98 and up to \$12.00 for extra large specimens.

SPREADING JAPANESE YEW

PYRANCANTHA LALANDI

(Firethorn) The most hardy variety. Upright grower, white flowers; large, orange colored berries from mid-summer 'til late winter. Prune annually for increased berry production. PRICES: \$1.50 up to \$7.50.

LEUCOTHOE

One of the handsomest broad-leaved evergreens, it grows to 6 feet with arching branches and large lustrous leaves, which in the autumn take on a bronzed autumn tone. The nodding white flowers are borne in clusters along the stem in early spring. PRICE: 10-15 in. plants \$2; others up to \$5.00

CANADIAN HEMLOCK

A native American tree that will stand severe cold. Valuable for landscape use in partial or heavy shade, or on north side of building. Makes a regular conical form, tempering, evenly from a broad base to a long thrift shoot. Grows very rapidly and has long, graceful branchlets. It may be trimmed into hedges and other shapes. PRICES: 15 to 18 inches \$2.98; Other sizes up to \$12.00.

Beautiful
with

MELLINGER'S LAWN SEED MIXTURES

HAVE A BEAUTIFUL LAWN--don't call it "work"--it's play, it's fun, it's healthful exercise. Treat your grass as a living thing, which it is; feed it, trim it carefully; be sure your mower is sharp. A dull mower soon ruins a lawn; it tears the leaf and pulls the roots. The cut should be easy and clean. Patch up its "sore" spots, remove its enemies, the weeds, look at it, "talk" to it, admire it, love it, feed it, stay with it. It is the perfect place for all the family to play to rest, for fellowship and to breathe in rich, pure, refreshing air!

EVERGREEN SEEDLINGS

A Young, Growing Industry —
Christmas Tree Production

PUT YOUR IDLE LAND TO WORK!

Over 40,000,000 Christmas Trees are used each year. Plantation Quality Trees ALWAYS command premium prices. Wholesale price in recent years, \$1.50 to \$3.00 per tree. Make a \$1000 investment to plant a 5 acre tract worth over \$5000 for timber in about 30 years (\$10 per acre per year). Bring cash profits by thinning Christmas trees from a forest plantation of at least \$1000 per acre.

Are a cash crop requiring no cultivation or extra care. Will increase the value of a property if it is being held for resale.

Act as an inflation-proof savings account, paying a high rate of interest.

Pay for a college education for your children if started early and properly managed.

Bring idle agricultural land into production profitably.

Improve soil by retaining moisture, preventing erosion, and restoring fertility.

PRICES

ORDERS

All prices quoted are F. O. B. our shipping points. No order can be accepted at these prices for less than units of 10 of one variety and size, 50 of any one kind and size at the 100 rate, 500 at the 1,000 rate. Customers should anticipate their needs and place orders early for seedlings and planting services and such orders should be accompanied by a suitable deposit.

WE WILL MACHINE PLANT SEEDLINGS FOR OUR CUSTOMERS

This service is available for our local customers, that are planting 5,000 or more seedlings. RESERVATIONS should be made EARLY for our machine planting service.

ECONOMY SIZE EVERGREENS

Because of the great cost involved in the shipping of the large evergreens, we are offering these smaller trees, postpaid. These are very well shaped young landscape plants. They are shipped without soil, but well packed in damp moss, to insure arrival in good condition. **BE SURE TO REMOVE ALL PACKING FROM ROOTS BEFORE PLANTING.** Local customers wishing to pick up these trees at nursery should call orders in previous day before pickup so that trees may be dug and packed before hand.
